

Summer Book Project 2010 Memory Card Game

The selected book is **7x9=Trouble** by Claudia Mills. (I have notified Books-a-Million).

You will need the following supplies to create your memory card game:

- 21 white index cards
- Markers, crayons, or colored pencils
- Ziploc bag

To begin, you need to choose a design for the blank side of your 21 Index cards. The design should have something to do with the book. Be as creative as possible! All 21 cards must have the same design on the back.

Next, choose 10 fun and/or interesting facts about the book. Please print neatly one fact on the undersigned side of two cards (you will have a total of 10 facts on 20 cards). On the 21st card print your name. Place all 21 cards in your Ziploc bag and bring to school on the first day of school.
